# Disappearing spells

You will need:

- pencil

- I can take some objects away from a group and say how many are left

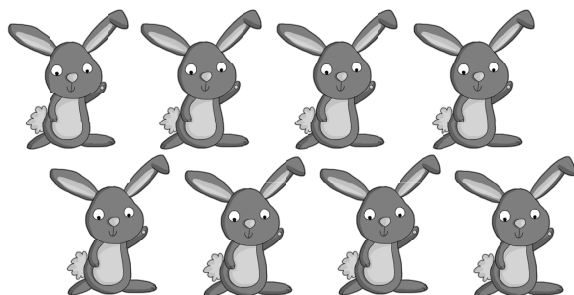

take away 4 leaves

take away 1 leaves

take away 2 leaves

take away 5 leaves

take away 3 leaves

## What to do

- Count each set of objects in turn and look at the number to take away (disappear). Cross out the number of objects to disappear and then count how many objects are left. Write this number in the box.
