# Comparing weights

- I can compare objects by weight

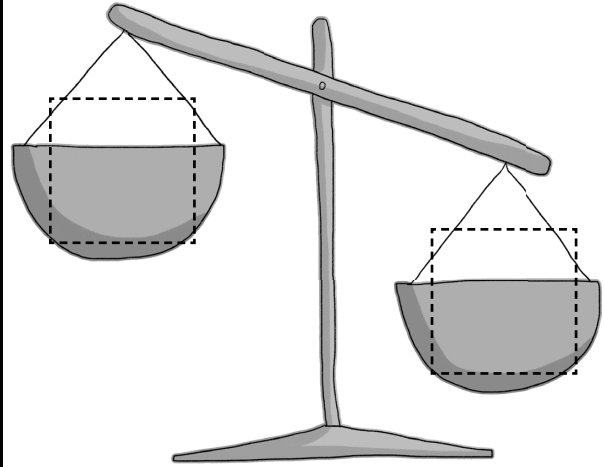

You will need:

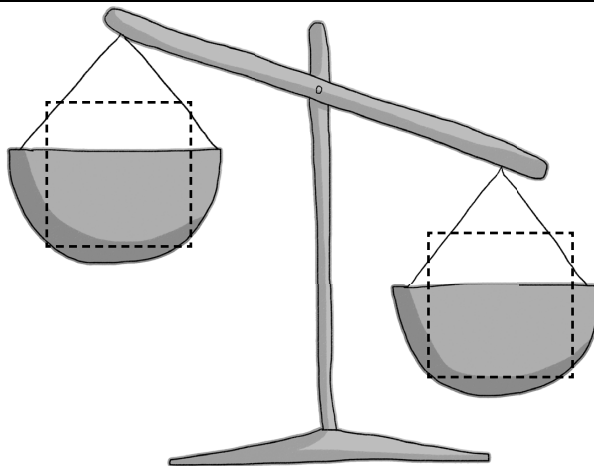

- glue
- scissors

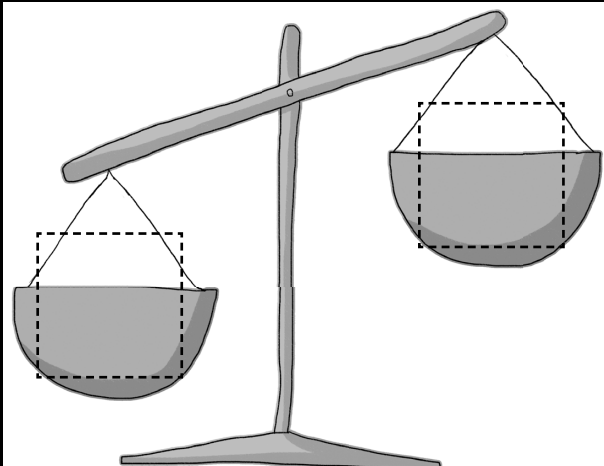

The book is **heavier** than the ball.

The car is **lighter** than the elephant.

The doll is **lighter** than the robot.

The kite is **heavier** than the balloon.

## What to do

- Cut out the pictures from the bottom of the sheet. Read the statement beneath each balance. Find the 2 correct pictures and glue them onto the right balance pans.
